UT22B-EU
Voltage Tester

UNI-T®

The UT22B-EU voltage tester is a simple to use tool for electricians and DIYers to measure AC/DC voltage. This voltage tester is IP54 rated, and designed to withstand a 2-meter drop. The great thing about this product is that it does not require any battery, its power is supplied by the voltage being tested! UT22B-EU can automatically distinguish between AC and DC voltage, indicated by the number of LED lights.

UT22B-EU

Specifications	Range
Certificates	**CE, UKCA**
Voltage indications (AC/DC)	
12V	6V~12V
24V	17V~24V
50V	35V~50V
120V	84V~120V
230V	161V~230V
400V	280V~400V
Frequency (AC)	50/60Hz
Voltage indication	LED
Category ratings	CAT III 400V, IP54

Features	
Automatically detect AC/DC voltage	Auto detection of AC/DC
Automatically indicate DC polarity (+/-)	Input protection
Hazardous voltage indicator when voltage >50V	

Characteristics	
Standard accessories	English manual
Power	None, powered by external source
Product size	265 x 42 x 27mm
Product net weight	136g
Standard individual packing	Gift box
Standard quantity per carton	40pcs
Standard carton measurement	525 x 300 x 310mm
Standard carton gross weight	8kg
